

## Oklahoma Chapter Needs List

Do you have a quality piece of equipment sitting around the barn/garage that you no longer have a need for? Would you like to put it to good use helping preserve some of the last great places in Oklahoma? Would you like to get a tax write-off for your generous donation?

Well, you have come to the right place. Listed below, by Oklahoma Chapter preserve, is equipment that is needed and will be put to good use. Please call the preserve contact listed with the details of your potential donation and thank you for considering The Nature Conservancy with your generosity.

### J. T. Nickel Family Nature & Wildlife Preserve

*Chris Wilson – (918) 456-7601*

- *90-HP Tractor* with front-end loader, needed for various stewardship work around the preserve, which could include road and fireline maintenance.
- *Bulldozer or Bobcat* for road, parking lot, and fireline maintenance.

### Pontotoc Ridge Preserve

*Jona Tucker – (580) 777-2224*

- *4WD Kubota Utility Vehicle*. For use during prescribed burning and herbicide application with a skid-mounted, slide-in spray tank and reel hose. It would have the capacity to hold more water than conventional tow-behind 4-wheeler sprayers we currently use, but still have the capability to go to the same places as a conventional ATV. Another benefit is that two people can ride in one and allows us to show visitors the preserve.
- 
- *4WD Truck* that runs well, has good tires, and no real problems, for use by volunteers, temporary hires and interns. Will be used to haul chainsaws and other equipment to cut cedar trees, small loads of gravel for restoration work, etc.
  - *Zero-Turn Lawn Mower* in very good condition for use maintaining area around preserve headquarters area.

## Tallgrass Prairie Preserve

*Bob Hamilton – (918) 333-8186*

- *Skid Steer Loader* with front-end loader and rubber tracks, needed for various stewardship and maintenance work around the preserve. Heavy-duty capacity machine needed such as John Deere model 332 or New Holland L190.
- *45-HP Tractor* with front-end loader, needed for various stewardship and maintenance work around the preserve.
- *Remedy (DowElanco) Herbicide* in 1, 2.5, or 30 gallon jugs, for spot-spray control program of the exotic weed, sericea lespedeza.
